

Weather Station with GPS For MatManager™

Weather Station with GPS for MatManager™ Paving Quality System.

The Weather Station measures air temperature, air pressure, wind and humidity conditions. The built-in GPS provides the exact data on corresponding GPS coordinates.

Data from the Weather station is collected via the MatManager™ Interface Box and presented on the MatManager™ 7" screen while paving.

All collected data is stored and can be exported for data processing and analysis in MatWiser™.

Weather Station with GPS is included in the Standard MatManager™ System.

MatManager™ Weather Station with GPS

Weather Station with GPS Specifications	
Part number	S-10109
Power Supply	12/24 Volt System
Dimensions (DiamxH)	Diam: 7cm - H: 10cm / 3.9in - 2.8in
Weight	280g / 0.6lbs
Operating Temperature	-20°C to +55°C / -4°F to 131°F
Storage Temperature	-25°C to +60°C / -13°F to 140°F
IP Rating	IPX4

Mount for Weather Station, Height adj. WS mount	
Part number	S-10133
Dimensions (LxWxH)	12x9x40cm / 5x3.5x15in
Weight	1030g / 2.2lbs

S-10133 Height adj. WS mount
Mount for Weather Station (Weather Station not included)

Weather Station Cable Specifications	
Part number	S-10119
Power Supply	12/24 Volt System (10-30 VDC)
Dimensions (Lenght)	10m / 32,8ft
Weight	375g / 0.8lbs
Operating Temperature	-20°C to +70°C / -4°F to 158°F

MatManager™ Weather Station Cable
